EXPERIENCE

Software Developer Intern

March 2025 – June 2025

Sankey Solutions

On-site, Mumbai

- Contributed to the development of the company's HR management system aimed at streamlining internal processes and enhancing operational efficiency.
- Worked extensively on the frontend, focusing on resource management and parts of project management, including designing and implementing corresponding schemas using TypeScript, Next.js, and Tailwind CSS for a scalable and modern UI/UX.
- On the backend, developed complete modules for asset management and IT support, including schema design, API development, and integration using Strapi.

PROJECTS

JobNet - Job Portal Application [\[Live Demo\]](#)

Dec 2024 – Jan 2025

Full-Stack Web Application

React.js, Node.js, Express.js, MongoDB, Bootstrap

- Developed a job portal using MERN stack (MongoDB, Express.js, ReactJS, Node.js) for seamless employer-job seeker interactions.
- Implemented user authentication (JWT), job search with filters, profile creation, and real-time job application tracking.
- Enabled employers to post and manage jobs, with secure data handling, efficient CRUD operations, and real-time notifications for application updates.

Social Helper – A Social Media Growth Toolkit

Aug 2024 – Present

Full-Stack Web Application

React.js, Node.js, Express.js, MongoDB, Shadcn UI

- A full-stack web application designed to streamline social media management for content creators and businesses.
- Developed AI-powered features using OpenAI and Assembly AI APIs for generating post titles, descriptions, captions, video transcriptions.
- Implemented YouTube thumbnail polling to gather audience feedback, improve engagement, and enable content downloads.
- Integrated secure authentication and user management with Clerk for a seamless experience.

ACHIEVEMENTS

- Solved 150+ DSA problems on [LeetCode](#) and GeeksforGeeks.
